Vehicle Cover Conditions

Mechanical Breakdown Warranty

The following components are covered against Mechanical Breakdown (as defined elsewhere in this document) of those items listed below.

Please note any parts not listed are specifically excluded.

Engine – All components contained within the cylinder block and head including pistons, rings, crankshaft, big end bearings, manifolds, rocker assembly, timing chains, timing gears, distributor drive.

Turbo Unit – All components including inlet and exhaust turbine shafts, bearings, bushes, wastegate devices. Turbo cover ceases at 7 years or 80,000 miles whichever comes sooner.

Gearbox – All components contained within either manual or automatic transmissions including gears, bearings, clutches.

Clutch – All components including clutch plate, clutch cover, thrust bearing and or release bearing. Limited to one clutch repair during the warranty duration.

Differential – All components including gears, pinions, bearings, shafts.

Drive Shafts – All components including propshaft, drive shafts, C.V. joints, couplings.

Brakes – All components including servo units, cylinders, valves.

Steering – All components on steering systems including power steering units, rams, pumps, reservoirs, steering box.

Suspension – All components including control arms, bushings, ball joints, pins.

Bearings – All components including wheel bearings, seals, hubs, flanges, where mechanical breakdown has occurred causing sudden stoppage of their function.

Cooling System – All components including radiator (excluding external damage), matrix, water pump, head gasket, thermostat.

Ventilation – All components including heater assembly vents, tubes, controls.

E.C.U. – All components including solid state control units, triggering units, distributor, coil.

Electrics – All components including motors, solenoids, relays, alternator, starter motor, switches, computers.

Fuel System – All components including fuel pump, carburettor, sender units, gauges, air flow meters, accumulator fuel distributor, regulators.

Air Conditioning – All components including compressors, pumps, reservoirs.

Locks – All components including regulators, handles, locks, catches (excluding accidental damage).

Seals – All major oil seals and gaskets.

Casings – Casings are covered if they have been damaged by any of the listed parts.

Exclusions – Cylinder head cracks, damage caused by frost, overheating or as a result of a lack of anti-freeze, all normal maintenance items such as but not limited to plugs, points, filters, breather valves, valve cover, gaskets, plus parts that require periodic replacement such as but not limited to high tension leads, rotor arms bulbs, ancillary belts, hoses, exhausts, tyres, fluids, batteries, in-car entertainment systems, alarms, immobilisers, normal wear items, nonmanufacturer approved parts.

Vehicle Hire – In the event of a valid claim and provided the manufacturers repair time is in excess of 8 working hours, a maximum of £45 per day inclusive of V.A.T but exclusive of fuel and insurance may be claimed for a maximum of 7 days from the time the repairs are started provided prior approval has been obtained from WARRANTIES 2000.

Recovery – In the event of a valid claim a maximum of £60 per claim inclusive of V.A.T will be reimbursed.

European Use – The limits of the warranty are extended to cover the vehicle whilst outside of the U.K but within the E.U for a period of not more than 60 days in any 12 month period.

Renewal – The warranty is renewable subject to the approval of Warranties 2000.
